PROFESSIONAL SYNOPSIS

Accomplished Chief Warrant Officer 2 (CW2) Aviation Maintenance Technician (151A) with 15 years of Army Aviation maintenance experience, holding a BS in Environmental Science and MBA (3.95 GPA). Expertise in optimizing operational efficiency, ensuring regulatory compliance, and managing personnel, equipment, and logistical readiness in garrison and deployed environments.

Experienced Production Control Officer supporting Task Force Nightmare's Atlantic Resolve deployment, overseeing maintenance and operational readiness of multiple helicopter airframes across several European countries. Skilled in coordinating logistics, ensuring efficient repairs, and maintaining operational standards in a multinational setting. Skilled in managing personnel, resources, and timelines to drive mission success and maintain combat readiness.

Concurrently serves as the Battalion's Logistics Aviation Maintenance Access Administrator for GCSS-A, managing system access and role assignments. Oversees accountability for Class II and IX repair parts, including a significant prescribed load list and a large inventory of aviation bench stock across multiple companies.

CAREER HIGHLIGHTS

- Managed 3-1 AHB as Production Control Officer in Charge, overseeing 30 UH-60M Blackhawks and achieving the highest operational rating within III Armored Corps for three consecutive months.
- Led the technical supply section to achieve a perfect score of 100% on the Aviation Resource Management Survey (ARMS).
- Managed the technical supply section for EUCOM's 1st Combat Aviation Brigade during FY24 Operation Assure, Deter, and Reinforce, coordinating high-priority parts requisitions from five external SSAs.
- Leveraged networking skills to secure and release over 400 high-demand GCSS-A terminal UH-60M UES Stack Assemblies, collaborating with DOD personnel from GCSS-A, 11D Sustainment Brigade, AMCOM, and DLA to modify the terminal GCSS-A code to non-terminal status.
- Recognized as Outstanding Instructor on six occasions while instructing over 600 initial entry Soldiers in the Aircraft Structural Repairer course and earned first place in the 128th Aviation Brigade's Distinguished Instructor of the Quarter competition.
- As a Junior Enlisted Soldier, was appointed Hazardous Materials Certifier NCOIC for Operation Enduring Freedom in Afghanistan, overseeing, revising, and processing the Task Force's shipping certification packets.

EXPERTISE

Aviation Production Control + Maintenance Management

Aviation Maintenance Logistics Management

Fleet Readiness + Operational Sustainment

Deployed Aviation Operations

Phase Maintenance Planning + Execution

High-Priority Parts Requisition + Component Tracking

Budget Oversight + Cost Reduction

Leadership + Team Management

Supply Chain Optimization + Requisition Accuracy

Risk Assessment + Mitigation

GCSS-Army (Global Combat Support System – Army)

EXPERIENCE

Production Control Officer in Charge

SEP 2025 - Present

3-1 AHB | Fort Riley, KS.

- Serves as Production Control Officer for Task Force Nightmare during Atlantic Resolve, overseeing maintenance for 16 UH-60M, 6 HH-60M, 4 CH-47F, and 8 AH-64E aircraft across several European countries.
- Synchronizes production control, sets daily maintenance priorities, manages work orders and back shops, and maintains AGSE accountability to ensure sustained fleet readiness and mission success during deployment.
- Oversees avionics programs and quality control, tracks components, and requisitions high-priority parts to reduce downtime and sustain timelines.
- Coordinates phase maintenance and repairs with Amentum and Aviation Support Company, integrating scheduled maintenance, external support, and critical parts turnaround.

Technical Supply Officer in Charge

OCT 2024 - Present

3-1 AHB | Fort Riley, KS.

- Battalion Technical Supply Officer for 30 UH-60M Black Hawk helicopters, overseeing Class II and IX aircraft repair parts.
- Enhanced the Battalion's maintenance program by minimizing NMCS time and sustaining an 85% OR rate.
- Collaborates with AMCOM, TACOM, and CECOM to implement safe and cost-efficient maintenance practices.
- Grants and assigns the roles as the Battalion's Logistics Aviation Maintenance Access Administrator with GCSS-A.

Technical Supply Officer in Charge

JUN 2022 - OCT 2024

601st ASB | Fort Riley, KS.

- Served as the Aviation Support Battalion Technical Supply Officer, advising the Commander on aviation maintenance logistics and synchronizing Class II and IX supply operations to sustain the Brigade's operational readiness.
- Oversaw and analyzed Class IX Air repair expenditures, reducing costs through enhanced internal repair capabilities and optimizing demand forecasting and requisition accuracy.
- Led the fielding of GCSS-A Wave 2 ensuring a seamless transition from ULLS-A to GCSS-A, training personnel, validating data migration, and maintaining uninterrupted maintenance and supply operations.
- Supported FY24 Operation Assure, Deter, Reinforce EUCOM rotation by requisitioning and expediting high-priority parts from five SSAs and global units, ensuring sustained aviation readiness.

Advanced Individual Training PMOS 15G10 Instructor

JUN 2019 - JUN 2022

2-210th AVN | Fort Eustis, VA.

- Instructed aviation training for NCOs and Soldiers in the Aircraft Structural Repairer Course (MOS 15G) as part of the 128th Aviation Brigade.
- Trained over 300 AIT students on aircraft technical manuals and publications, achieving a 100% pass rate and fully preparing them for FORSCOM operations.
- Administered and graded more than six ACFT evaluations as a level 2 grader, providing mentorship and supporting the Drill Sergeant's PRT schedule to ensure sustained physical readiness.
- Volunteered 40+ hours organizing an annual Thanksgiving food drive, successfully feeding 30 military families, while demonstrating leadership and community involvement.

Aviation Operations Sergeant

DEC 2018 - JUN 2019

1-214th GSAB | Wiesbaden, Germany

- Led the battalion S3 Land, Ammunition, and Future Operations overseeing the ordering, accountability, and distribution of land, aircraft, and training ammunition across five companies at two garrisons 250 miles apart.
- Directed planning, distribution, and management of 25 OPORDs and FRAGOs leading six NCOs and Soldiers for UH-60 gunnery qualifications, ensuring zero losses.
- BN Master Driver NCOIC; revised and implemented the SOP, enhancing efficiency and military drivers' safety for five companies.

Component Repair Platoon Section Supervisor

MAR 2016 - DEC 2018

1-214th GSAB | Wiesbaden, Germany

- Component Repair Platoon NCOIC reporting to Production Control.
- Managed daily maintenance of 5 MOS specialties providing technical guidance and executing daily schedule expectations.
- Oversaw convoy mission for Saber Strike 2018 deployment operations and Master Driver training management.
- Developed Soldiers through mentorship, professional growth, administrative oversight, legal coordination, and physical fitness.

Aircraft Structural Repairer Squad Leader Supervisor

OCT 2014 - MAR 2016

1-227th ARB | Fort Hood, TX.

- Aircraft Structural Repair Supervisor / Squad Leader / HAZMAT NCOIC.
- Coordinated cross-battalion airframe repairs during NTC Rotation 16-01 improving Task Force aircraft readiness.
- Served as HAZMAT NCOIC, ensuring full EPA regulatory compliance.
- Setting the 1ST Cavalry Division standard through counseling packet organization and administrative accountability.

Aircraft Structural Repairer and Administrative Specialist

JAN 2014 - OCT 2014

1-227th TF | Mazar-I-Sharif, Afghanistan

- Aircraft Structural Repair Supervisor / Squad Leader / HAZMAT NCOIC.
- Operation Enduring Freedom; RC-North Afghanistan.
- Task Force HAZMAT NCOIC.
- FORSCOM Aviation Resource Management Survey (ARMS); 100% rating.

Aircraft Structural Repairer

NOV 2011 - JAN 2014

1-227th ARB | Fort Hood, TX.

- Aircraft Structural Repairer; developed an innovative composite bonding technique reducing aircraft downtime by 30%.
- Executed 400+ aircraft maintenance man hours for scheduled, unscheduled, and phase maintenance operations.
- Ranked in top 5% of the Technical Transportation of Hazardous Materials course.
- Recognized as a top Junior Enlisted Soldier for exceptional achievement and professional demeanor.

Previous Military Experience

2001 – 2011

Self-Employed | DeFuniak Springs, FL.

- Founder and Owner of Four-Leaf Woodworks; finish carpentry and hardwood floors business.
- Job estimation / bidding / public relations / material ordering / accounting / warranties.

EDUCATION

Master of Business Administration, General Concentration; 3.95 GPA

Completion: NOV 2025
